Obvious Bobbles/Mistakes (1 point):
 Obvious mistakes are those the audience could see. If it took away from the effect of the routine so your eye is drawn to it, that is the point at which a deduction is taken. Examples: hand(s) down on tumbling; obvious missed skills; shaky stunts/pyramids; incomplete twisting cradles; memory mistakes involving obvious execution of incorrect moves; etc. (Balance checks in stunts are NOT a deduction. A flyer losing their grip and dropping their foot from a scorpion IS a deduction.) Deductions for boundary violations will be taken only if there is not an immediate attempt to return to the competition boundary

Major Mistakes (3 points):
 Major errors during technical skills. Examples: drops from individual stunts; drops during tumbling skills

Major Falls (5 points):
 Major falls during technical skills or other obvious severe mistakes. Examples: multiple falls in a single sequence/series by a single structure, pyramids that fall or are severely missed

Comments:

1.0 x _____ = _____

3.0 x _____ = _____

5.0 x _____ = _____

TOTAL _____
